Hi Tim and Mike,

Thanks for the notice today regarding the additional product types that Lard Oil has identified as having spilled as a result of the 8/12-13 flooding. EPA does **not** need to sample these as of now; however,

i- Can you provide a list of these products?

ii- Can you provide the most current estimated spill volume?

Also, to reiterate phone conversations that I've had with Mike, please notify me prior to your collection of confirmation samples. EPA would like to document the excavated areas and the collection of samples.

Thanks, -keith
